[The Foreign Policy of the European Union](#)

Stephan Keukeleire, Tom Delreux

Bloomsbury Academic, 2022

ISBN 9781350930483

46174, 46175, 46176, 46177

Keukeleire and Delreux demonstrate the scope and diversity of the European Union's foreign policy, showing that EU foreign policy is broader than the Common Foreign and Security Policy and the Common Security and Defence Policy, and that areas such as trade, development, environment and energy are inextricable elements of it. This book offers a comprehensive and critical account of the EU's key foreign relations – with its neighbourhood, with the US, China and Russia, and with emerged powers – and argues that the EU's foreign policy needs to be understood not only as a response to crises and conflicts, but also as a means of shaping international structures and influencing long-term processes. This third edition reflects recent changes and trends in EU foreign policy as well as the international context in which it operates, addressing issues such as the increasingly contested international order, the conflict in Ukraine, the migration and refugee crisis, Brexit and Covid-19. The book not only clarifies the formal procedures in EU foreign policy-making but also elucidates how it works in practice. The third edition includes new sections and boxes on 'strategic autonomy', European arms exports, the EU's external representation, the 'Brussels Effect', and decentring and gender approaches to EU foreign policy.

[Sociology of Europeanization](#)

edited by Sebastian M. Büttner, Monika Eigmüller, Susann Worschech

De Gruyter Oldenbourg, 2022

ISBN 9783110673623

The numerous and far-reaching socio-political transformations that have taken place on the European continent since the mid-20th century have stipulated the emergence of new approaches and research fields in the social sciences. One of these is the development of a Sociology of Europeanization. This textbook provides an overview of its major topics, concepts, and research approaches. Each of the 14 chapters of this textbook introduces one particular topic of the Sociology of Europeanization – ranging from major conceptual considerations to an exploration of the numerous spatial, cultural, economic, political, judicial, and socio-structural implications of Europeanization. Hence, this book is very suitable as a fundamental introductory reading and for teaching in European studies and related study programs. It is also recommended to everyone who is interested in more recent European history and current sociological studies of transnationalization.

Histoire du Caucase au XXe siècle

Étienne Forestier-Peyrat

Fayard, 2020

ISBN 9782213712468

46171

L'histoire du Caucase contemporain, ancienne région de contact entre les empires, est un parcours au fil d'un siècle de relations entre Russie, Turquie et Iran. Des premières années du XXe siècle aux conséquences de la chute de l'Union soviétique, ces territoires de confins furent l'objet d'enjeux politiques et militaires, mais aussi économiques, culturels et migratoires exacerbés par cet ancrage géographique à la croisée des influences. Comment la densité d'un espace frontalier turbulent se retrouve-t-elle au cœur de politiques qui visent à l'homogénéiser et à l'intégrer dans des espaces de plus en plus nationaux ? Comment passe-t-on d'une frontière ouverte, vécue de manière fluide par les populations, à ce lieu de confrontation, politique ou idéologique ? Tandis que la question de la circulation des hommes a pris ces dernières années un caractère dramatique, Étienne Peyrat livre les clés pour comprendre la nature même des frontières et de leur évolution dans le monde contemporain, entre jeu des puissances et vie des sociétés.

Paulina Siegień
Miasto bajka
Wiele historii Kaliningradu

Zaledwie pięćdziesiąt kilometrów od północnej granicy Polski leży półmilionowe miasto. Dziś nazywa się Kaliningrad. Dawniej, gdy granice przebiegały inaczej, było pruskim Königsbergiem i było też Królewcem. To miasto na wskroś europejskie. A jednak transformacja dawnej stolicy Prus Wschodnich najpierw w sowiecki, a potem rosyjski Kaliningrad wywołuje dziwny niepokój, uczucie niedopasowania wyczuwalne w samym mieście – zarówno u mieszkańców, jak i władz, tych lokalnych i tych na Kremlu. Na pierwszy rzut oka to zwykła rosyjska prowincja, może bardziej zakompleksiona, porównująca się chętniej do przedwojennej potęgi i europejskich sąsiadów niż do Moskwy czy Petersburga. Ale równocześnie pod powierzchnią kryje się inne miasto, ni to widmo, ni to chimera. Paulina Siegień opowiada o połączeniu się przedwojennego Königsberga z powojennym Kaliningradem w jedno fantazmatyczne miasto niczym z bajki. Tu pamięć nie chce przeminąć, to, co współczesne, odbija się w tym, co dawne. Duch przeszłości nie znika. Tylko czy jest to dobry duch Kanta z jego ideą wiecznego pokoju, czy ponury i złowieszczy Smętek?

[Understanding energy security in Central and Eastern Europe: Russia, transition and national interest](#)

edited by Wojciech Ostrowski, Eamonn Butler

Routledge, Taylor & Francis, 2021

ISBN 9780367438517

46189

The purpose of this book is to move beyond the approach which views energy as a purely geopolitical tool of the Russian state and assumes a 'one size fits all' approach to energy security in Central and Eastern Europe (CEE). It argues that in order to fully understand Russian involvement in the regional energy complex, the CEE-Russian energy relationship should be analysed in the context of the political and economic transitions that Russia and the CEE states underwent. The chapters on individual countries in the book demonstrate that, although Russia has and will continue to play a substantial role in the CEE energy sector, the scope of its possible influence has been overstated.

[The Weaponisation of Everything: A Field Guide to the New Way of War](#)

Mark Galeotti

Yale University Press, 2022

ISBN 9780300253443

46178

Hybrid War, Grey Zone Warfare, Unrestricted War: today, traditional conflict – fought with guns, bombs, and drones – has become too expensive to wage, too unpopular at home, and too difficult to manage. In an age when America threatens Europe with sanctions, and when China spends billions buying influence abroad, the world is heading for a new era of permanent low-level conflict, often unnoticed, undeclared, and unending. Transnational crime expert Mark Galeotti provides a comprehensive and ground-breaking survey of the new way of war. Ranging across the globe, Galeotti shows how today's conflicts are fought with everything from disinformation and espionage to crime and subversion, leading to instability within countries and a legitimacy crisis across the globe. But rather than suggest that we hope for a return to a bygone era of "stable" warfare, Galeotti details ways of surviving, adapting, and taking advantage of the opportunities presented by this new reality.

The Unsettling of Europe: The Great Migration, 1945 to the Present

Peter Gatrell

Penguin, 2020

ISBN 9780141984797

46191

Migration is perhaps the most pressing issue of our time, and it has completely decentred European politics in recent years. But as we consider the current refugee crisis, acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move. The end of World War II left Europe in a state of confusion with many Europeans virtually stateless. Later, as former colonial states gained national independence, colonists and their supporters migrated to often-unwelcoming metropolises. The collapse of communism in 1989 marked another fundamental turning point. Gatrell places migration at the centre of post-war European history, and the aspirations of migrants themselves at the centre of the story of migration. This is an urgent history that will reshape our understanding of modern Europe

[The revenge of power: how autocrats are reinventing politics for the 21st century](#)

Moisés Naím

St. Martin's Press, 2022

ISBN 9781250279200

46190

Moisés Naím's *The Revenge of Power* is an urgent, thrilling, and original look at the future of democracy. It illuminates one of the most important battles of our time: the future of freedom and how to contain and defeat the autocrats mushrooming around the world. In his New York Times bestselling book *The End of Power*, Moisés Naím examined power-diluting forces. In *The Revenge of Power*, Naím turns to the trends, conditions, and behaviors that are contributing to the concentration of power, and to the clash between those the forces that weaken power and those that strengthen it. He concentrates on the three "P"s – populism, polarization, and post-truths. All of which are as old as time, but are combined by today's autocrats to undermine democratic life in new and frightening ways. Power has not changed. But the way people go about gaining it and using it has been transformed. *The Revenge of Power* connects the dots between global events and political tactics that, when taken together, show a profound and often stealthy transformation in power and politics worldwide. Using the best available data and insights taken from recent research in the social sciences, Naím reveals how, on close examination, the same set of strategies to consolidate power pop up again and again in places with vastly different political, economic, and social circumstances, and offers insights about what can be done to ensure that freedom and democracy prevail. The outcomes of these battles for power will determine if our future will be more autocratic or more democratic. These outcomes will, in turn, depend on the capacity of our democracies to survive the attacks and dirty tricks of autocratic leaders bent on weakening the checks and balances that limit their power. Naím addresses the questions at the heart of the matter: What are, in practice, those attacks and tricks? Why is power concentrating in some places while in others it is fragmenting and degrading? And the big question: What is the future of freedom?

[Digital Silk Road: China's Quest to Wire the World and Win the Future](#)

Jonathan E. Hillman

Profile Books, 2021

ISBN 9781788169585

Its vast infrastructure projects now extend from the ocean floor to outer space, and from Africa's megacities into rural America. China is wiring the world, and, in doing so, rewriting the global order. As things stand, the rest of the world still has a choice. But the battle for tomorrow will require America and its allies to take daring risks in uncertain political terrain. Unchecked, China will reshape global flows of data to reflect its own interests – and the lives of countless individuals enmeshed in its systems. Taking readers on a global tour of these emerging battlefields, Jonathan E. Hillman reveals what China's digital footprint looks like on the ground, and explores the dangers of a world in which all routers lead to Beijing.
